Compensation:
$35–$50 per hour DOE, plus summer night differential and overtime.

Alaska Seaplanes is a locally owned and managed, growing company dedicated to providing the highest standard of safety and customer service in Southeast Alaska. We offer scheduled and charter flights on both float and wheel planes, operating under IFR and VFR.

Our fleet includes Pilatus PC-12s (2), Cessna 208 Caravans on floats with Garrett power (2), Cessna 208 Caravans on wheels with Garrett power (2), Cessna 208 EX Caravans with P&WC PT6A-140 engines (2), Cessna 206s (2), and De Havilland DHC-2 Beavers (4). Our Aircraft Mechanics perform scheduled and unscheduled maintenance on this fleet to meet company and industry standards.

Key Responsibilities:
- Perform inspections and maintenance to industry and company standards
- Troubleshoot and repair damaged, worn, or defective components
- Read and interpret discrepancies and diagnose problems
- Assemble and install components and accessories
- Complete paperwork, including discrepancy records, inspection checklists, parts tags, MELs, and work orders
- Check out inventory used and keep the hangar, parts room, and tool room clean and organized
- Follow company safety policies and practice safety-conscious behavior in all operations
- Other duties as assigned

Required Experience & Skills:
- Must be 18 years of age or older
- Must be legally authorized to work in the United States
- Must hold a current FAA Airframe and Powerplant (A&P) certificate
- Must be able to fluently read, write, speak, and understand English
- Working knowledge of FAA regulations and industry standards
- Ability to work self-directed with minimal supervision and as part of a team
- Ability to lift up to 60 lbs and work in a physically demanding environment
- Must pass FAA DOT pre-employment drug test and participate in random drug testing

Preferred:
- Line maintenance experience with an air carrier or charter operator
- Experience on single-engine turboprop and piston aircraft, including floatplanes
- Strong troubleshooting skills on mechanical and electrical systems

Benefits:
- Medical and dental insurance
- 401(k) retirement plan with 4% company match
- $50,000 company-paid life insurance
- Flight and freight benefits with Alaska Seaplanes, including:
  - 4 ID100 flights
  - $1 Space Available flights
  - 50% off confirmed space flights
  - Buddy passes to share with family and friends
  - Special charter rates and freight benefits
- Alaska Airlines and Delta ID90 travel benefits after 6 months of employment
