

SERVICE INFORMATION

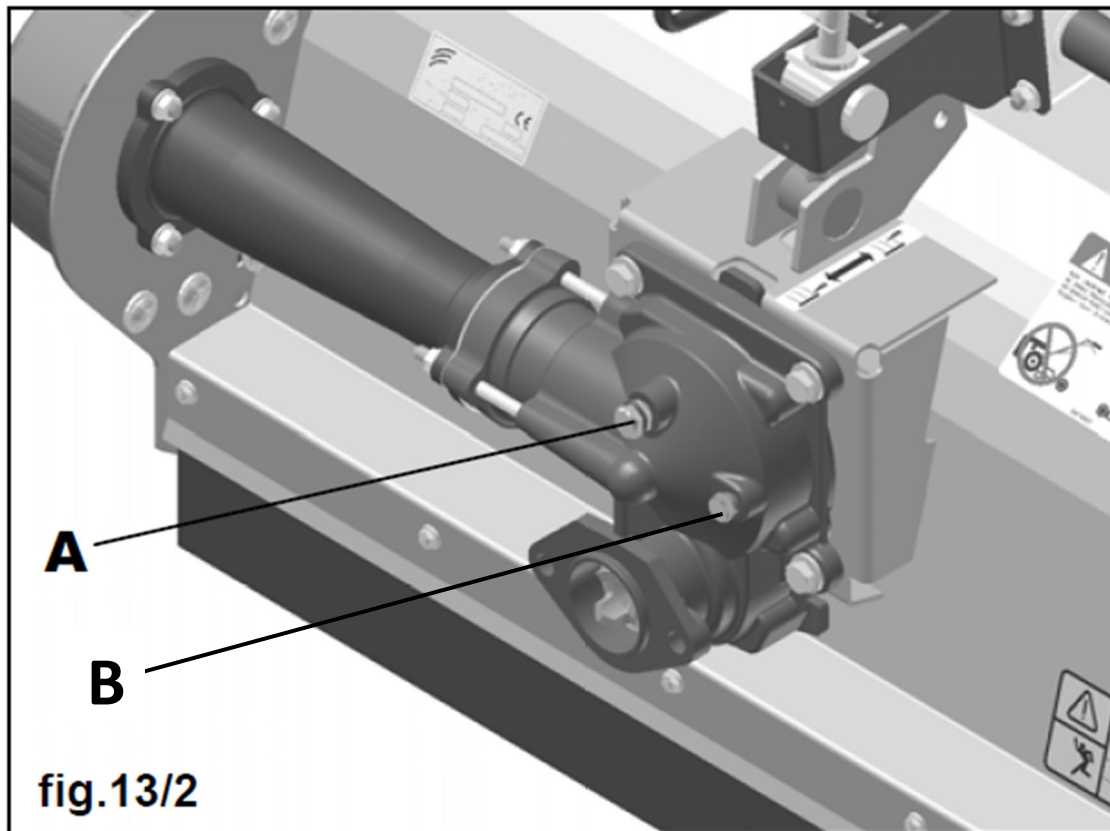

3-17

UPDATED 6/1/2023

SUBJECT:

**Fluid Change instructions for BCS RollerBlade and BladeRunner Flail Mowers.
The same process is used for changing fluid in the Power Cradle accessory.**

Roller Blade Flail Mower (Blade Runner) 24" (60), 30" (75), and 35" (90)

- Drain the fluid by removing plug A. Loosen plug B to allow air flow.
- Tip the unit so the drain is facing down (use a pan to catch the old fluid).
- Once drained, return the unit to a level orientation as shows in the image.
- Slowly add new fluid into A. Fill up to the point where fluid begins to leak out of B.
- Replace plug A and tighten A & B.

Use 80w90 gear oil. Uses approximately 10oz.

If you have questions, please contact BCS America at 1-800-543-1040, or email info@bcsamerica.com
