

Oregon's wine growing pioneers had more than a simple vision. Theirs was a particularly spirited, determined way of life that reflected something greater than the young vines they tended. A belief in the power of community, a commitment to being stewards of this beautiful land, and a deep love of their quirky, incomparable home gave birth to a collection of vineyards, wine growers, and industry professionals admired and respected across the globe.

Here you will find a list, and a program, positively brimming with intriguing, noteworthy Oregon wines. Each was chosen using criteria that reflects the values of Oregon's pioneering purists — responsible vineyard management, low-intervention vinification, and laser-focused expression of the vineyard in which they were grown. A collection of hidden gems from both wine luminaries and up-and-coming young producers, these selections are unlikely to be spotted in your local bottle shop or tasting room.

There is something here for every wine enthusiast — Oregon boasts 15 distinct growing regions and dozens of microclimates within them, each with a distinctive soil, slope, and story. And while our selection may range in grape variety, style, acidity level, and expression of fruit, an underlying, uniquely Oregon current firmly connects each wine grower, and each wine.
