

GARMENT CARE MANUAL

Off-Road Jerseys

Hand
wash

Do not
bleach

Do not
iron

Do not
dryclean

Hang
to dry

To care for off-road jerseys, machine wash cold on a gentle cycle using mild detergent or a specialized textile cleaner such as Molecule Apparel Wash, available in 4 oz or 16 oz bottles from Helmet House or a local dealer. Avoid bleach, ironing, and tumble drying. Always hang to dry naturally. For optimal maintenance between rides, consider using Molecule Apparel Protector and Molecule Apparel Refresh. These products help keep your jerseys looking sharp, lasting longer, and smelling fresh.
